(a) In accordance with the clause of this contract entitled “ELECTRONIC SUBMISSION OF PAYMENT REQUESTS” (DFARS 252.232-7003), the Naval Sea Systems Command (NAVSEA) will utilize the DoD Wide Area Workflow Receipt and Acceptance (WAWF) system to accept supplies/services delivered under this contract. This web-based system located at <https://wawf.eb.mil> provides the technology for government contractors and authorized Department of Defense (DoD) personnel to generate, capture and process receipt and payment-related documentation in a paperless environment. Invoices for supplies/services rendered under this contract shall be submitted electronically through WAWF. Submission of hard copy DD250/invoices may no longer be accepted for payment.

(b) It is recommended that the person in your company designated as the Central Contractor Registration (CCR) Electronic Business (EB) Point of Contact and anyone responsible for the submission of invoices, use the online training system for WAWF at <http://wawftraining.com>. The Vendor, Group Administrator (GAM), and sections marked with an asterisk in the training system should be reviewed. Vendor documentation is available under Resources at <http://wawftraining.com>.

(c) The designated CCR EB point of contact is responsible for activating the company’s CAGE code on WAWF by calling 1-866-618-5988. Once the company is activated, the CCR EB point of contact will self-register under the company’s CAGE code on WAWF and follow the instructions for a group administrator. After the company is set-up on WAWF, any additional persons responsible for submitting invoices must self-register under the company’s CAGE code at <https://wawf.eb.mil>.

## SECTION C DESCRIPTIONS AND SPECIFICATIONS

### 1.0 INTRODUCTION

In July 1992 the Navy realigned functions between the Naval Sea Systems Command and its affiliated PEOs and DRPMs to form the PEO for Mine Warfare. Subsequent re-organization resulted in the formation of PEO Mine and Undersea Warfare. On 1 November 2002, ASN (RD&A) expanded the role of PEO MUW to include EOD, Special Warfare, IUSS, unique Mine Warfare systems, and, potentially, Assault Vehicles and changed the title to PEO Littoral and Mine Warfare. This decision was based on new direction to the PEO to focus on the entire littoral challenge and to deliver a coherent response to operational requirements in that region.

PEO LMW supports the Office of the Secretary of Defense in executing the requirements of the Department of the Navy and the Joint Services for the following support areas: Engineering, Logistics, Acquisition, and Business/Financial Management. PEO LMW programs cover a multiplicity of acquisition programs for systems required by one or more of the Military services (Army, Marine Corps, Navy, and Air Force).

### 2.0 BACKGROUND

The Littoral battle space is a challenging environment requiring a complex mix of systems and technologies. PEO LMW is a “capabilities based” PEO and is focused on bringing capability to the Littoral battle space. PEO LMW is on the front lines of both the current war on terror and building the Navy of tomorrow. Accordingly the PEO requires the close coordination of efforts among and between the PEO’s Program Managers to present a Littoral and Mine Warfare perspective with the capability to integrate efforts among and between all programs and Program Offices. PEO LMW is composed of the following Program Offices and systems.

a. PMS495. Mine Warfare Systems are comprised of all of all Navy mining as well as the Surface Mine Countermeasures (MCM), subsurface MCM, Airborne Mine Defense, and Amphibious Mine Countermeasures systems and equipments that are involved in: mine/obstacle surveillance, detection, localization, classification and neutralization; launchers, handling, stowage, transportation and control equipment; related communications, command and control unique to MCM; beach and lane marking; precision navigation systems unique to MCM; sea mines, sea mine launch accessories, training mines; data processing and display for each system as appropriate; system specific support and training equipment and test equipment.

b. PMS480. The Anti-Terrorism Afloat Systems encompass the total life cycle management of Anti-Terrorism Afloat and Anti-Terrorism Expeditionary systems and equipment. The program consists of the planning, direction and integration of effort relating to the definition, development, test and evaluation, acquisition, maintenance, logistic support, and in-service engineering of anti-terrorism afloat systems.

c. PMS485. The Maritime Surveillance Systems encompass the Advanced Deployable System (ADS), Fixed Surveillance System (FSS) and Surveillance Towed Array Sensor System (SURTASS) programs that are involved in target surveillance, detection, classification and localization of threat submarines and other Targets of Interest (TOIs) in littoral regions and open ocean areas of national interest. FSS and SURTASS provide acquisition and life cycle support for FSS underwater and SURTASS mobile systems; shore data processing systems; communications, command and control and collection of long-term oceanographic and undersea geological information. Advanced Deployable System (ADS) is developing an undersea surveillance capability in order to rapidly deploy a wide area, littoral water, self powered undersea surveillance capability.

d. PMS403. Unmanned Undersea Vehicles (UUVs) encompass those unmanned undersea systems, both tethered and non-tethered, which can operate independently from or in concert with submarines and surface ships. Mission roles include search, detection and classification; weapon targeting and placement; countermeasures; communications; mapping; intelligence collection; component implantment, servicing and recovery; special warfare/EOD support; surveillance and other related activities

e. PMS408. The Explosive Ordnance Disposal (EOD) systems encompass those systems used to detect/locate,

access, examine, identify, render safe and/or dispose of surface and underwater explosive ordnance as well as system specific support and training/test equipment. Four major program areas where these responsibilities are exercised are:

- Joint Service Explosive Ordnance Disposal Programs
- Navy Underwater Explosive Ordnance Disposal Programs
- Marine Mammal Systems
- Very Shallow Water Mine Countermeasures Programs

f. PMS420. The Littoral Combat Ship (LCS) Mission Modules encompass warfare specific mission modules that are integrated together to provide Mission Package capability to the LCS. Each package will consist of all equipment, systems and personnel needed to operate and maintain combat capability for a specific mission. These Missions include Mine Warfare, Anti Surface Warfare, Anti-Submarine Warfare and the Affordable Weapons Systems Program.

g. PMS340. The Naval Special Warfare (NSW) systems encompass equipment associated with special operations maritime support of fleet operations; SEAL diver life support; SEAL Delivery Vehicles (SDV); NSW Mine Countermeasures (NSW MCM); SEAL night vision and electro-optic systems; Navy Premeditated Personnel Parachuting (P3) equipment; Navy Small Arms; SEAL Special Programs; SEAL combat search and rescue (CSAR) equipment; SEAL weapons and ordnance systems; maritime equipment and systems in support of the Joint Special Operations Command (JSOC); and other joint maritime Special Operations programs. The systems are generally are non-conventional in nature, clandestine in character and include the responsibility for: hydrographic reconnaissance, coastal and riverine interdiction, intelligence collection, direct action and special operations missions.

3.0 Scope. PEO LMW is assigned acquisition and life cycle responsibility and management accountability for all assigned programs. The current primary programs are listed below. ORGANIZATIONAL CONFLICT OF INTEREST (NAVSEA) (JUL 2000)

(a) "Organizational Conflict of Interest" means that because of other activities or relationships with other persons, a person is unable or potentially unable to render impartial assistance or advice to the Government, or the person's objectivity in performing the contract work is or might be otherwise impaired, or a person has an unfair competitive advantage. "Person" as used herein includes Corporations, Partnerships, Joint Ventures, and other business enterprises.

(b) The Contractor warrants that to the best of its knowledge and belief, and except as otherwise set forth in the contract, the Contractor does not have any organizational conflict of interest(s) as defined in paragraph (a).

(c) It is recognized that the effort to be performed by the Contractor under this contract may create a potential organizational conflict of interest on the instant contract or on a future acquisition. In order to avoid this potential conflict of interest, and at the same time to avoid prejudicing the best interest of the Government, the right of the Contractor to participate in future procurement of equipment and/or services that are the subject of any work under this contract shall be limited as described below in accordance with the requirements of FAR 9.5.

(d) (1) The Contractor agrees that it shall not release, disclose, or use in any way that would permit or result in disclosure to any party outside the Government any information provided to the Contractor by the Government during or as a result of performance of this contract. Such information includes, but is not limited to, information submitted to the Government on a confidential basis by other persons. Further, the prohibition against release of Government provided information extends to cover such information whether or not in its original form, e.g., where the information has been included in Contractor generated work or where it is discernible from materials incorporating or based upon such information. This prohibition shall not expire after a given period of time.

(2) The Contractor agrees that it shall not release, disclose, or use in any way that would permit or result in disclosure to any party outside the Government any information generated or derived during or as a result of performance of this contract. This prohibition shall expire after a period of three years after completion of performance of this contract.

(3) The prohibitions contained in subparagraphs (d)(1) and (d)(2) shall apply with equal force to any affiliate of the Contractor, any subcontractor, consultant, or employee of the Contractor, any joint venture involving the Contractor, any entity into or with which it may merge or affiliate, or any successor or assign of the Contractor. The terms of paragraph (f) of this Special Contract Requirement relating to notification shall apply to any release of information in contravention of this paragraph (d).

(e) The Contractor further agrees that, during the performance of this contract and for a period of three years after completion of performance of this contract, the Contractor, any affiliate of the Contractor, any subcontractor, consultant, or employee of the Contractor, any joint venture involving the Contractor, any entity into or with which it may subsequently merge or affiliate, or any other successor or assign of the Contractor, shall not furnish to the United States Government, either as a prime contractor or as a subcontractor, or as a consultant to a prime contractor or subcontractor, any system, component or services which is the subject of the work to be performed under this contract. This exclusion does not apply to any recompetition for those systems, components or services furnished pursuant to this contract. As provided in FAR 9.505-2, if the Government procures the system, component, or services on the basis of work statements growing out of the effort performed under this contract, from a source other than the contractor, subcontractor, affiliate, or assign of either, during the course of performance of this contract or before the three year period following completion of this contract has lapsed, the Contractor may, with the authorization of the cognizant Contracting Officer, participate in a subsequent procurement for the same system, component, or service. In other words, the Contractor may be authorized to compete for procurement(s) for systems, components or services subsequent to an intervening procurement.

(f) The Contractor agrees that, if after award, it discovers an actual or potential organizational conflict of interest, it shall make immediate and full disclosure in writing to the Contracting Officer. The notification shall include a description of the actual or potential organizational conflict of interest, a description of the action which the Contractor has taken or proposes to take to avoid, mitigate, or neutralize the conflict, and any other relevant information that would assist the Contracting Officer in making a determination on this matter. Notwithstanding this notification, the Government may terminate the contract for the convenience of the Government if determined to be in the best interest of the Government.

(g) Notwithstanding paragraph (f) above, if the Contractor was aware, or should have been aware, of an organizational conflict of interest prior to the award of this contract or becomes, or should become, aware of an organizational conflict of interest after award of this contract and does not make an immediate and full disclosure in writing to the Contracting Officer, the Government may terminate this contract for default.

(h) If the Contractor takes any action prohibited by this requirement or fails to take action required by this requirement, the Government may terminate this contract for default.

(i) The Contracting Officer's decision as to the existence or nonexistence of an actual or potential organizational conflict of interest shall be final.

(j) Nothing in this requirement is intended to prohibit or preclude the Contractor from marketing or selling to the United States Government its product lines in existence on the effective date of this contract; nor, shall this requirement preclude the Contractor from participating in any research and development or delivering any design development model or prototype of any such equipment. Additionally, sale of catalog or standard commercial items are exempt from this requirement.

(k) The Contractor shall promptly notify the Contracting Officer, in writing, if it has been tasked to evaluate or advise the Government concerning its own products or activities or those of a competitor in order to ensure proper safeguards exist to guarantee objectivity and to protect the Government's interest.

(l) The Contractor shall include this requirement in subcontracts of any tier which involve access to information or situations/conditions covered by the preceding paragraphs, substituting "subcontractor" for "contractor" where appropriate.

(m) The rights and remedies described herein shall not be exclusive and are in addition to other rights and remedies provided by law or elsewhere included in this contract.

(n) Compliance with this requirement is a material requirement of this contract.

NAVSEA CAAS Study Team Review of Task Order No. N00178-04-D-4026-EH01– Determination:

Non-FMS Funded Labor SLINs: 100% CAAS, 0% Non-CAAS

FMS Funded Labor SLINs: Labor – 0% CAAS, 100% Non-CAAS.

All ODC SLINs: 100% Non-CAAS.

Justification: On 26 September 2005, NAVSEA CAAS Study Team Chairman Mr. Dave Diamantopoulos reviewed the requirements addressed within subject Task Order. During the review it was determined that the non-FMS funded labor requirements addressed within the subject task order are 100% CAAS as defined within Public Law 10 U.S.C., Section 2212. All FMS funded labor requirements, however, are non-CAAS, per exemption 10 and identified within DoD Directive 4205.2 dated 10 February 1992 referenced within Title 10 U.S.C., Section 2212, that specifically exempts from the definition of CAAS, "...Services supporting the policy development, management, and administration of the Foreign Military Sales Program that are not paid with funds appropriated by the Congress..."

### HQ G-2-0007 INVOICE INSTRUCTIONS (NAVSEA) (APR 2011)

(a) In accordance with the clause of this contract entitled "ELECTRONIC SUBMISSION OF PAYMENT REQUESTS" (DFARS 252.232-7003), the Naval Sea Systems Command (NAVSEA) will utilize the DoD Wide Area Workflow Receipt and Acceptance (WAWF) system to accept supplies/services delivered under this contract. This web-based system located at <https://wawf.eb.mil> provides the technology for government contractors and authorized Department of Defense (DoD) personnel to generate, capture and process receipt and payment-related documentation in a paperless environment. Invoices for supplies/services rendered under this contract shall be submitted electronically through WAWF. Submission of hard copy DD250/invoices may no longer be accepted for payment.

(b) It is recommended that the person in your company designated as the Central Contractor Registration (CCR) Electronic Business (EB) Point of Contact and anyone responsible for the submission of invoices, use the online training system for WAWF at <http://wawftraining.com>. The Vendor, Group Administrator (GAM), and sections marked with an asterisk in the training system should be reviewed. Vendor documentation is available under Resources at <http://wawftraining.com>.

(c) The designated CCR EB point of contact is responsible for activating the company's CAGE code on WAWF by calling 1-866-618-5988. Once the company is activated, the CCR EB point of contact will self-register under the company's CAGE code on WAWF and follow the instructions for a group administrator. After the company is set-up on WAWF, any additional persons responsible for submitting invoices must self-register under the company's CAGE code at <https://wawf.eb.mil>.

(d) The Contractor shall segregate costs for the performance of incrementally funded CLINs/SLINs from the costs of performance of fully funded CLINs/SLINs.

#### NAVSEA 5252.242-9115 TECHNICAL INSTRUCTIONS

(a) Performance of work hereunder may be subject to written technical instructions signed by the Task Order Manager (TOM) specified in Section G of this contract. As used herein, technical instructions are defined to include the following:

(1) Directions to the Contractor which suggest pursuit of certain lines of inquiry, shift work emphasis, fill in details and otherwise serve to accomplish the contractual statement of work.

(2) Guidelines to the Contractor which assist in the interpretation of drawings, specifications or technical portions of work descriptions.

CONTRACT NO. N00178-04-D-4026	DELIVERY ORDER NO. EH01	AMENDMENT/MODIFICATION NO. 51	PAGE 205 of 217	FINAL
----------------------------------	----------------------------	----------------------------------	--------------------	-------

(b) Technical instructions must be within the general scope of work stated in the contract. Technical instruction may not be used to: (1) assign additional work under the contract; (2) direct a change as defined in the "CHANGES" clause in this contract; (3) increase or decrease the contract price or estimated contract amount (including fee), as applicable, the level of effort, or the time required for contract performance; or (4) change any of the terms, conditions or specifications of the contract.

(c) If, in the opinion of the Contractor, any technical instruction calls for effort outside the scope of the contract or is inconsistent with this requirement, the Contractor shall notify the Contracting Officer in writing within ten (10) working days after the receipt of any such instruction. The Contractor shall not proceed with the work affected by the technical instruction unless and until the Contractor is notified by the Contracting Officer that the technical instruction is within the scope of the contract.

(d) Nothing in the foregoing paragraph shall be construed to excuse to Contractor from performing that portion of the contractual work statement which is not affected by the AWARD TERM CLAUSE. See Award Term Clause and Plan, Section J, Task Order Attachment 2.

#### Award term Clause

In addition to the terms set forth elsewhere in the Task Order, the contractor may earn an extension to the task order period from a minimum of 1 to a maximum of 3 years on the basis of performance during the evaluation periods. The Task Order period may be extended on the basis of the contractor's performance against stated performance parameters. Points shall be awarded during each evaluation period on the basis of how the contractor has performed against the predetermined criteria. The Task Order period may then be extended to reflect this assessment. As stated in the Award Term Plan below, a performance rating of unsatisfactory in any evaluation period shall void any previously awarded award-term extensions.

(a) Award Term. The award-term concept is an incentive that permits extension of the Task Order period beyond the base period of performance for superior performance or reduction of the Task Order period of performance because of poor performance.

(b) Term Points. Points are awarded during each evaluation period on the basis of the contractor's performance. A score of 85 points is required for a one-year term extension; a score of 40 points or less shall result in the loss of any previously awarded term extensions.

(c) Monitoring of Performance. The contractor's performance will be continually monitored by the performance monitors whose findings are reported to the Award Term Review Board (ATRB). The ATRB recommends an award term to the Term Determining Official (TDO), who makes the final decision on the award-term amount on the basis of the contractor's performance during the award-term evaluation period.

(d) Award-Term Plan. The evaluation criteria, the associated points, and the associated award-term extensions or reductions are specified in the award-term plan.

(e) Modification of Award-Term Plan. The TDO may unilaterally change this plan prior to the beginning of an evaluation period. In addition, the contractor may recommend changes to the plan no later than 30 days prior to the beginning of the new evaluation period. The contractor will be notified of changes to the plan by a modification to the task order, before the start of the affected evaluation period. Changes to this plan that are applicable to a current evaluation period will be incorporated by the mutual consent of both parties.

(f) Self-Evaluation. The contractor will submit to the Contracting Officer, within 5 working days after the end of each award-term evaluation period, a brief written self-evaluation of its performance for that period. This self-evaluation shall be limited to 20 pages and will include the most recent Standard Form 294, Subcontracting Report for Individual Contract, for the task order. It will be used in the ATRB's evaluation of the contractor's performance during this period.

(g) Disputes. Decisions regarding the award term, including—but not limited to—the amount of the award term, if any; the methodology used to calculate the award term; calculation of the award term; the supplier's entitlement to the award term; and the nature and success of the contractor's performance, are made by the TDO. These

decisions are final and are not subject to dispute.

(h) Award-Term Extension. The Task Order period may be modified to reflect the TDO decision. The total task order period, including extensions under this clause, will not exceed the time remaining on the SeaPort IDIQ contract, including exercised options. If at any time the Task Order period does not extend more than two years from the time remaining on the SeaPort IDIQ contract, the operation of the award-term provision will cease and the task order period will not extend beyond the term set at that time.

(i) Necessary Condition Precedent:

(1) FAIR AND REASONABLE PRICE A NECESSARY CONDITION: The Contracting Officer must determine that the price set forth in the Task Order for the goods or services covered by the Task Order continues to be fair and reasonable for a given award term period. Such a decision is at the sole discretion of the Contracting Officer. A decision that the price is no longer fair and reasonable will result in the Government voiding any award terms earned. A determination regarding whether there is a continued need for the same goods or services may be made at any time.

(2) OPTION EXERCISE A NECESSARY CONDITION: If at any time the Government does not exercise an option, any previously awarded award term(s) shall be void.

(3) CONTINUED FUNDS A NECESSARY CONDITION: The Contracting Officer must make a determination that sufficient funds are available before an award term that has been earned and retained may become effective. The determination that sufficient funds are available does not constitute a finding that funds equal to the full total estimated cost of performance for a given year are available. Award term periods may be incrementally funded as permitted by law and regulation. In the event of incremental funding, the clause entitled LIMITATION OF FUNDS (FAR 52.232-22 (April 1984) shall apply.

The decision that sufficient funds are available is at the sole discretion of the Contracting Officer. Resources available to the program manager are subject to the managerial discretion of the program manager and a decision that sufficient funds are not available for this Task Order may be made even if there are funds available to the program office. A determination regarding the availability of funds may be made at any time.

(4) CONTINUED REQUIREMENT A NECESSARY CONDITION: The Contracting Officer must determine that a continued need for the same goods and services covered by this Task Order exists for a given award term period. Such a decision is at the sole discretion of the Contracting Officer. A decision that the requirement has changed or that a requirement for the same goods or services no longer exists will result in the Government voiding any award terms earned. A determination regarding whether there is a continued need for the same goods or services may be made at any time.

(j) Failure of Earned Award Terms not a Termination: If at any time the Government does not authorize performance of a previously awarded award term, the subsequent terms shall be considered void. The contractor shall not be entitled to any costs arising out of or related to those award terms that are made void by virtue of the operation of this clause. An award term decision that an already earned award term has not been retained is not a termination for convenience. A decision by the Contracting Officer that any of the necessary conditions has not been satisfied is not a termination for convenience. For example, if the contractor has earned three award terms but the Government fails to exercise the option for the fifth year of the Task Order, then the Task Order shall end at the completion of the period of performance for the fourth year.

(k) Contractor Right to Decline: The contractor retains the right to decline any award term earned, even after award and/or retention, prior to 15 months before the start of an award term year. The Contractor must notify the Contracting Officer in writing prior to 15 months before the start of the award term year of its desire not to perform the next award term year. Failure to so notify the Contracting Officer may result in a default termination if the Contractor fails to perform an award term that the Government has authorized. In the event the Contractor elects its right to decline an earned award term, all award terms shall be void.

(l) Extension of the Task Order: The Contracting Officer will unilaterally modify the Task Order to extend the period of performance in one-year increments when each of the following conditions apply:

CONTRACT NO. N00178-04-D-4026	DELIVERY ORDER NO. EH01	AMENDMENT/MODIFICATION NO. 51	PAGE 207 of 217	FINAL

- 1) an award term earned has been retained;
- 2) the Government has a continuing requirement for the good(s) or service(s) covered;
- 3) the price established for the covered line items remains fair and reasonable;
- 4) appropriated funds are available;
- 5) the Contractor has not expressly stated in writing that it is unwilling to perform an award term no later than fifteen months before the beginning of an award term period.

#### Award Term Plan

### 1.0 INTRODUCTION

This is the basis for evaluation of the contractor's performance and for presenting an assessment of that performance to the term-determining official (TDO). The evaluation for the number of term points to be awarded will begin at the start of the Task Order.

Award-term contracting is effective when performance metrics are objective, a long-term business relationship is of value to the government and to the contractor, and the expected outcomes are known up-front. The specific criteria and procedures used for assessing the contractor's performance and for determining the award term earned are described herein. All TDO decisions regarding the award-term points—including, but not limited to, the number of points, if any; the methodology used to calculate the points; the calculation of the points; the contractor's entitlement to the points; and the nature and success of the contractor's performance—are final and not subject to dispute.

The award term will be provided to the supplier through unilateral task order modifications based upon points earned as determined by the TDO.

### 2.0 ORGANIZATION

The award-term organization includes the TDO and an Award-Term Review Board (ATRB) consisting of a chairperson, the contracting officer, a recorder, other functional area participants, advisory members, and the performance monitors.

### 3.0 RESPONSIBILITIES

a. Term-Determining Official. The TDO approves the award-term plan and any significant changes to it. The TDO reviews the recommendations of the ATRB, considers all pertinent data, and determines the earned award-term points for each evaluation period. The TDO appoints the ATRB chairperson.

b. Award-Term Review Board Chairperson. The ATRB chairperson chairs the meetings of the ATRB and appoints the non-mandatory members of the board and the performance monitors. The ATRB chairperson briefs the TDO on recommended earned term amounts and the contractor's overall performance and recommends award-term plan changes to the TDO.

c. Award-Term Review Board. ATRB members review performance monitors' evaluation of the contractor's performance, consider all information from pertinent sources, prepare interim performance reports, and arrive at the earned award-term points recommendation to be presented to the TDO. The ATRB will also recommend changes to this plan. An assessment of the contractor's performance will be done on a yearly basis, starting with the performance of Option 2 of this task order.

d. ATRB Recorder. The ATRB recorder is responsible for coordinating the administrative actions required by the performance monitors, the ATRB, and the TDO.

CONTRACT NO. N00178-04-D-4026	DELIVERY ORDER NO. EH01	AMENDMENT/MODIFICATION NO. 51	PAGE 208 of 217	FINAL
----------------------------------	----------------------------	----------------------------------	--------------------	-------

e. Contracting Officer (CO). The CO is the liaison between contractor and government personnel. Subsequent to the TDO decision, the CO evaluates the award-term points available and modifies the Task Order period of performance, if necessary, to reflect the decision.

f. Performance Monitors. Performance monitors maintain written records of the contractor's performance in their assigned evaluation areas so that a fair and accurate evaluation is obtained. Monitors prepare interim and end-of-period evaluation reports as directed by the ATRB.

#### 4.0 AWARD-TERM PROCESSES

a. Available Award-Term Points. The earned award-term points will be based on the contractor's performance during each evaluation period. The available points for each evaluation period are shown below in Table 3. A score of 85 points is required for a one year term extension.

b. Evaluation Criteria. If the CO does not give specific notice in writing to the contractor of any change to the evaluation criteria prior to the start of a new evaluation period, then the same criteria listed for the preceding period will be used in the following award-term evaluation period. Modifications to the plan shall take effect in the next evaluation period.

c. Interim Evaluation Process. Interim evaluations will be conducted six months after task order award, exercise of options and award of term extensions, if any. At the discretion of the TDO, interim evaluations may take place more frequently (e.g., at major milestones). The ATRB recorder notifies ATRB members and performance monitors 14 calendar days before the interim evaluation date. Performance monitors submit their evaluation reports to the ATRB 21 calendar days after this notification. The ATRB determines the interim evaluation results and notifies the contractor of the strengths and weaknesses for the current evaluation period. The CO may also issue letters at any other time when it is deemed necessary to highlight areas of government concern.

d. End-of-Period Evaluations. The ATRB recorder notifies ATRB members and performance monitors 14 calendar days before the end of the evaluation period. The contractor presents its self-assessment to the CO within five working days after the end of the evaluation period. This written assessment of the contractor's performance throughout the evaluation period may also contain any information that could be reasonably expected to assist the ATRB in evaluating its performance. The written assessment shall include a copy of the most recent SF 294, Subcontracting Report for Individual Contracts. The self-assessment may not exceed 20 pages. Performance monitors submit their evaluation reports to the ATRB 14 calendar days after the end of the evaluation period. Copies shall be provided to the contractor; the contractor is then given an opportunity to address the performance monitor evaluations. The ATRB prepares its evaluation report and recommendation regarding earned or unearned award-term points. The ATRB briefs the evaluation report, and recommendation to the TDO within 30 calendar days after the end of the evaluation period. The TDO determines the overall award-term points for the evaluation period within 45 calendar days after each evaluation period. The TDO letter informs the contractor of the earned award-term points. Upon the award of sufficient award term-points, the CO issues a contract modification within 15 calendar days after the TDO's decision is made authorizing an award extension or reduction based on the earned or unearned award-term points.

#### 5.0 AWARD-TERM PLAN CHANGE PROCEDURE

The TDO may unilaterally change this plan prior to the beginning of an evaluation period. In addition, the contractor may recommend changes to the plan no later than 30 days prior to the beginning of the new evaluation period. The contractor will be notified of changes to the plan by a modification to the task order, before the start of the affected evaluation period. Changes to this plan that are applicable to a current evaluation period will be incorporated by the mutual consent of both parties.

OVERALL GRADE DEFINITIONS AND CORRESPONDING AWARD TERM POINTS

Unsatisfactory Performance: Contractor's performance of most contract tasks is inadequate and inconsistent. Quality, responsiveness, and timeliness in many areas require attention and action. Corrective actions have not been taken or are ineffective.

Award Term Points: 0 – 40

Satisfactory Performance: Contractor's performance of most contract tasks is adequate with some tangible and intangible benefits to the Government due to contractor's effort or initiative. Although there are areas of better performance, these are more or less offset by lower-rated performance in other areas.

Award Term Points: 41-80

Excellent Performance: Contractor's performance of virtually all contract tasks is consistently noteworthy and provides numerous significant, tangible or intangible, benefits to the Government (e.g., improved quality, responsiveness, increased timeliness, or generally enhanced effectiveness of operations). The few areas for improvement are all minor. There are no recurring problems. Contractor's management initiates effective corrective
