SECTION C DESCRIPTIONS AND SPECIFICATIONS

Introduction and Background

Mentoring Network Program

The achievement of the Command's vision and mission depends on developing an agile, flexible, and responsive workforce. As the Command focuses on transforming into a competency aligned organization and innovating technical and business approaches, mentoring and coaching are essential components for employee managerial and leadership development. Developing mentoring partnerships will cultivate and preserve knowledge Command-wide, foster an environment of opportunity for all, leverage diversity to remove artificial achievement barriers, and demonstrate the value of the contributions of all employees. A formal mentoring program is a key business strategy to grow and manage our talent pool by assuring the civilian workforce and military personnel have access to subject-matter expertise at every point in their professional careers and to develop critical competencies required for current and future performance.

The Command-wide Mentoring Network Program encourages military and civilian personnel to participate as a mentor or mentee on a voluntary basis. The program provides the opportunity for communication and interaction between employees at different levels, within and across competency domains, at NAVSEA Headquarters and at Field Activities, in an effort to provide opportunities to share organizational knowledge and experience.

The Program mission is to promote a mentoring culture that fosters personal growth and professional development resulting in increased workforce diversity, readiness, retention and accountability. To achieve this mission and support Command-wide program implementation, NAVSEA's mentoring program objectives are to: (1) develop a diverse workforce of leaders whereby senior executives or managers share their experience, knowledge, and insight with new supervisors and employees; (2) provide new employees a structured but personalized method to acquaint them to the Department of the Navy and the Command; (3) afford accessibility to the organization's collective experience, wisdom, values, and culture; (4) foster a Command-wide collaborative environment to increase functional learning and knowledge sharing, and to promote diversity of thought and skill; (5) link employees with real time knowledge and best practices to reduce the learning curve on organization projects/business initiatives; and, (6) support a multicultural workforce by creating partnerships among diverse employees and allowing equal access to mentoring.

Mentoring partnerships are defined as a reciprocal learning partnership in which the mentor and mentee develop a written agreement where they will work collaboratively toward achievement of mutually defined goals/outcomes by sharing experiences and expertise to guide personal growth and professional development. A partnership may be self-selected, decided by a third party, or established through a systematic matching process.

There are various types of mentoring program partnerships that serve the needs of the workforce. They are:

One-on-One mentoring that involves two individuals, each with areas of expertise and contribution, who collaborate to achieve developmental or learning goals.

Virtual Mentoring depends on the primary mode of communication between the mentor and mentee through the use of electronic tools. These tools include email, online meeting platforms, videoconferencing, telephone, voicemail, and faxes. Virtual mentoring is intended for partnerships not co-located. This allows mentoring partnerships to be formed between parties at different NAVSEA field activities.

----------------------------------	----------------------------	----------------------------------	------------------	-------

Mentoring Circles consist of one or more mentors who work with a group of mentees, to pursue a range of both structured and non-structured activities. The circle mentor(s) could be a senior person who has acquired a broad base of knowledge and experience at different organizational levels, and is recognized as a subject-matter expert in one or several Command specific initiative areas, has achieved success in his or her technical field, has contact with a wide variety of people, success in managing teams, achieved reputation for competence, and a history of fostering employees' development.

To successfully introduce and sustain a Command-wide total force approach, it is imperative NAVSEA's deploys a comprehensive mentoring development and training roadmap that infuses mentoring capacity, competence, and capability of the organization.

Contractor Performance

The performance of the contractor delivery of training will be assessed using training participant course evaluations using a scale of 1 to 6 with 6 being considered outstanding. Training delivery will be assessed in the following areas:

Knowledge of course material

Platform skills and participant engagement

Facilitator attitude and demeanor

Facilitators must average a rating of 4.0 for training delivery. Training receiving an average rating of less than 4.0 shall require a meeting with the Command Mentoring Program Coordinator and other Activity coordinators to discuss remedying the resultant score. If facilitation is not improved (overall score), a negative performance assessment may be given to the contractor.

Government-Furnished Equipment (GFE)/Government-Furnished Information (GFI).

The Government will provide the following resources:

Facilities, Supplies and Services: NAVSEA will provide classroom space and audio visual equipment.

Purpose

To ensure mentoring partnership effectiveness, it is important to avail a series of workshops focusing on the critical competencies and tools to build effective mentoring relationships.

The awardee of this Task Order shall design, develop and facilitate a series of Command-wide mentoring workshops. The initial workshop roll out will occur at Headquarters, NAVSEA (Washington Navy Yard) and the Naval Ordnance Safety and Security Activity (NOSSA) Indian Head, Virginia. The Mentoring Network Training and Education Program will consist of one-day formal workshops and a mentoring certification program (for experienced/seasoned mentors) to support the various mentoring platforms. Formal workshops consist of a foundational format, peer to peer, mentoring circles, and an advanced mentor workshop. Each workshop avails the critical skills, knowledge, and tools to develop and cement effective mentoring partnerships. The foundational workshop will introduce and integrate the IT tool resources into the workshop. NAVSEA uses the IT tool "Open Mentoring" owned/developed by Triple Creek Associates to support automated mentee and mentor matching and resources to support the duration of a mentoring partnership.

Task One.

The Contractor shall develop a Beta Test workshop, to be piloted prior to delivery of the general classroom training sessions outlined below. The Contractor is responsible for designing each workshop and participant materials. Up to 20 participants may attend each Beta workshop at Headquarters, NAVSEA (Washington Navy Yard). Headquarters and Command Activity Mentor Program Coordinators shall attend each workshop and review any materials and provide feedback and comments to the contractor within 5 business days of individual workshop presentations. The contractor shall then finalize each workshop content within 5 business days and be prepared to deliver individual workshops sessions as options exercised. Task Two: Deliver of individual mentoring workshops – “Building Effective Mentoring Partnerships (101)”, “Advanced Mentoring – Enhancing Mentoring Relationships”, “Peer-to Peer Mentoring”, and “Mentoring Circles”.
